

Everything you would find in a full-size home but in less space than your living room.

The microHOME® is a mix between a small house, a ship's cabin, and a travel trailer. It comes standard with a kitchenette, including a sink, stove, refrigerator and storage, as well as a private bathroom with a pass-thru shower and composting toilet. There are also a multitude of interior options and porch styles to choose from. With just a single unit the microHOME® can provide all the daily needs of three occupants.
